German Attempt Against the French

Failed.

(Associated Press)

London officially announced that at dawn today the British attacked the enemy's second system of defense and broke into the hostile positions on a front of four miles, capturing several strongly defended localities. Heavy fighting continues. A Reuter dispatch says the British captured Longueval, three and a half miles east of Contalmaison, Brazent-in-Le-Grand and Trones wood.

Attacks Failed.

Paris officially stated that two attempts by the Germans to attack the French positions north of Alsne and south of Ville Au Bois failed.

Blow Up Austrians.

Rome reported the summit of Castel letto in the Tofano region has been blown up by the Italians, the entire Austrian force being buried in the wreckage.

London, July 14.—Grand Duke Nicholas, rallying from the recent reverses inflicted by the Turks in Armenia, has driven the Ottoman line back twenty-five miles in the district west of Erzerum in a week. Petrograd officially reports that "in the Caucasus, west of Meridian and Erzerum, our offensive is developing."

The forces under Grand Duke Nicholas in Armenia and Persia have been fighting vigorously against the Turks for months.

A few weeks ago parts of these forces, especially those west of Erzerum, were compelled to fall back in the face of a stronger Turkish army. Early this week the Grand Duke resumed the offensive in this region and recaptured Mamakhatum, fifty miles west of Erzerum.

FREE CHILDREN FROM SECT

Eighteen Taken by State from Orphanage at Carlinville.

Springfield, Ill., July 14.—Gratitude of eighteen children freed with revocation of the license of the Bethel Holiness Orphanage at Carlinville was described by President Kern of the State Board of Administration.

Both the Reverend C. C. Brown, the institution superintendent, and his wife have been dislodged; also their three assistants. All of them are of the same sect, Kern said, and co-operated in "conquering" their charges. By "conquering" was meant the confession of prescribed religious views. "Mrs. Brown, the superintendent's wife," said the president of the board, "told us that some children could be conquered in two hours; for others, it required sometimes as long as two weeks."

LARGE SHIPMENT OF CLAM SHELLS MADE

NEARLY 100 TONS LOADED HERE
FOR EASTERN FACTORY
THURSDAY.

FIRST SHIPMENT SINCE SPRING

Shipment of clam shells from Dixon was resumed Thursday after a period of idleness extending from the early spring, when the state game and fish commission, placed an embargo on the enterprise in the waters of Rock river and its tributaries. The embargo was raised June 15th and Thursday's shipment from this city was the first to be made since the removal of the restrictions.

As a result many clambers are several hundred dollars richer today for the shells sold at the highest price they have commanded in years—\$25 per ton. This week's shipment of almost 100 tons was to the St. Mary's Pearl Button company at St. Mary's, W. Va., for which J. T. Lawrence is local buyer.

ALMOST LANDED CONVENTION

Postmaster Hogan Made Great Effort
At Peoria.

Postmaster W. J. Hogan made a determined effort to land the 1917 convention of the postmasters of the first, second and third class offices in Illinois at the annual meeting of the association at Peoria this week, but Joliet won from this city by one vote. The fact that Dixon came so close to landing the meeting practically assures the selection of this city for the 1918 convention.

MT. MORRIS TO MEET DIXON HERE SUNDAY

FANS ARE ASSURED OF A GREAT
BALL GAME—VISITORS ARE
VERY STRONG.

ATTENDANCE NOT UP TO MARK

The Mt. Morris baseball team, one of the fastest in northern Illinois, will meet the Dixon aggregation at Lincoln park Sunday afternoon at three o'clock and local fans are expecting some great sport. The Dixon team has been playing a swell game all season, and as a result has not been defeated. Mt. Morris recently defeated Oregon, 4 to 3, and Oregon classes with the salaried Rochelle team. Huber and Schultz will be the battery for Dixon and those who have seen this combination at work during the season know they will be able to deliver.

Incidentally, it must be acknowledged that the Dixon boys have not been patronized in keeping with the excellence of their game. The management has already lost \$150 this season and because of poor attendance the players' "split" has been small. Unless Sunday's game shows a marked increase in attendance it will probably be the last this year.

CIVIC LEAGUE FOR THE HALF HOLIDAY

ALSO ADVOCATING CLOSING THE
STORES WEDNESDAY EVENING
DURING SUMMER.

The Woman's Civic League Auxiliary of Dixon, a progressive, wide-awake organization which has the best interests of Dixon at heart, has communicated with the Commercial club, of which E. J. Countryman is president, and advised that it is in favor of the plan of a half holiday every week, as has been advocated in the Evening Telegraph, and it further urges closing the stores on Wednesday evenings. The communication of the league follows:

Dixon, Ill., July 13, 1916.
E. J. Countryman,
Chairman Com. Club of Dixon.

Dear Sir:

We, the members of the Civic League Auxiliary, wish to bring to your attention the feeling we have with regard to the matter of closing stores on Wednesday evenings and also for one-half day each week during the summer months, and we do hereby urge that such a plan be adopted and that it be done as soon as possible, inasmuch as the summer is now practically half gone.

The present plan of closing neither on Wednesday evenings nor giving the half holiday brands our beautiful and prosperous city with the stigma of "small town" and as this plan has been adopted generally and quite successfully in other towns no larger than Dixon, we feel that it could be done quite as successfully here as elsewhere.

We feel sure after investigating the matter that the merchants of the city would be glad to do this and are only awaiting the expression of public opinion showing them they will be upheld by the community in so doing, and with this idea in mind we are in this way presenting to you the fact that we do heartily urge and endorse such a movement.

NO PASSENGERS ALLOWED

(Associated Press)

Washington, July 14.—The advisory report by the government neutrality board to Acting Secretary of State Polk is understood to hold the submarine Deutschland entitled to all the privileges of a peaceful merchant craft. The indications are that the department will make no formal announcement concerning the submarine but that the treasury department will be advised to permit her to sail when she desires.

Washington, July 14.—When the German submarine Deutschland starts on its return trip to Bremen, agents of the United States will be present to see that no American citizen takes passage on the vessel.

The no-passenger order of the government, so it was said, will be based on the report of the naval board that examined the Deutschland that the vessel does not comply with the rules of the bureau of navigation applicable to all passenger-carrying craft. It is pointed out for instance, that the submarine is not properly equipped with lifeboats, does not have adequate provision for sleeping or feeding passengers, and falls far short of this government's regulation with respect to air space that must be provided for passengers.

Dramatic Notes

PRINCESS THEATRE.

Tonight the Princess will present Margaret Gibson and the Bostock Animals in the photo drama "Clouds in Sunshine Valley."

Margaret Gibson gives her usual fine interpretation in the Centaur-Mutual 2-act drama, "Clouds in Sunshine Valley," in which she portrays the role of a rancher's daughter. In this powerful drama of the thirst parched deserts that have been made to bloom by the work of the hardy pioneers, Wm. Clifford plays opposite lead, giving a stirring characterization of a small rancher who is being ruined by the owners of the irrigation system.

A love story running through the drama serves to throw the harsher elements in bold relief. The Bostock animals are used to excellent advantage and give the touch of the wild that is necessary to the atmosphere of the story.

The Mutual Weekly news events, and "Rival Rogues," a comedy featuring Rube Miller and Marge Kirby.

THE GARRICK

"Nothing but the Truth" continues to make a large audience laugh at the Garrick Theatre in Chicago. This farce, which James Montgomery dramatized from a book of the same name, is making a reputation for itself in Chicago that will go a long way towards easing it into New York early in August. The farce has met with such universal praise in Chicago that it is sure of being a great success in New York. If you want to spend an enjoyable evening go and see this play.

Ned Bennett is this hero's name and this role in "Nothing But the Truth" is admirably acted by Will Deming, an old Chicago favorite. Mr. Deming will be remembered as the principal player in another great farce which had a long Chicago run, "It Pays to Advertise." He loses no opportunity for fun-making in this new part, and his work in this farce will undoubtedly add to his reputation as an actor.

Mr. Deming is also mentioned who appear in this farce beauty as well as artistry is well represented in Marie Carroll, Tone Bright, Mary Harper, Nona Blake and Beatrice Clevenger. They all do their full share in helping along this very funny play. While "Nothing But the Truth" remains at the Garrick, summer prices will prevail. Evening and Saturday matinee prices will be from 50 cents to \$1.50, but the best seats at the Wednesday matinee will be only \$1.

PRINCESS-CHICAGO

Henry E. Dixey is exciting much curiosity in Chicago, at the Princess Theatre, as this man of mystery, "Mr. Lazarus," which the press and public declare to be one of the most novel plays seen here in a decade, and unquestionably the funniest.

Not only will "Mr. Lazarus" bring "Adonis" Dixey to the field of comedy in which he has done some of his most delightful work, but it will challenge interest and curiosity on its own account as the latest production of these successful playwrights, Mr. O'Higgins and Miss Ford, who have to their credit already "The Argyle Case," "The Dummy" and "Polygamy." The play is said to be just such a piece of whimsical humor and mystery as will supply an idea vehicle for Dixey in the title role of the western miner returned "as from the dead," and a trifle uncertain of his identity, while the heart of the plot is a romance of young love, full of charm and ardor.

CORT THEATRE, CHICAGO

Maude Elburne, the comedienne, who is continuing to climb high on the theatrical ladder of fame by her impersonations of efficiency house-keeper in "A Pair of Queens," H. H. Frazee's great farce success at the Cort Theatre, Chicago, is on her good behavior these days and she wouldn't miss a cue or mistake a line in the play for anything. Maude has been under constant surveillance recently, for her severest critic is her nine year old daughter Marian.

Marian is a golden haired youngster of the precocious kind. She is a pupil at a Canadian convent but now vacation days are here and she is with her mother. She knows all her mother's lines in "A Pair of Queens" and all the stage business. For a week now she has been perched on a high chair in the wings where she can keep her eyes on her mother.

"You were not very good tonight, mother," said the youngster after a recent performance. "You missed several laughs."

And Maude never said a word for she knows it's bad form to quarrel with a critic.

FOX RIVER VALLEY WINS PURE WATER

Cities Polluting Stream Must Provide Septic Tanks.

Springfield, Ill., July 14.—A four year legal battle to force the purification of the Fox river has been won by residents of that valley.

As the result of a decision by Judge Creighton of the Sangamon county circuit court denying the cities of Elgin and Aurora, Ill., an appeal, those municipalities have been given until Dec. 31, 1917, to comply with the ruling of the Illinois rivers and lakes commission, which ordered the construction and operation of septic tanks for the disposal of sewage.

The order of the commission was entered after many witnesses had testified to the condition of the stream. The commission ruled that with the sewage of the cities of Elgin and Aurora and numerous factories and villages emptying into the stream the waters were polluted.

Action was started by Edward F. Gorton, an attorney, and several other residents of the valley, including Herbert P. Crane, a son of the late R. T. Crane, who lives at St. Charles, Ill. An appeal from the finding of the commission was asked by Aurora and Elgin on the ground that the necessary construction work would require a financial expenditure impossible for them to meet at that time.

VERDUN ATTACK GROWS VIOLENT

Heaviest Fighting of Day Occurs Near Fort Souville.

BERLIN ADMITS BRITISH GAIN

No Change on Somme — Germans Check Russ Drive on Stokhod — Muscovites, However, Attack in Another Quarter — Bag 2,000 Prisoners — Italians in New Gaid.

London, July 14.—The chief weight of the German offensive in France was hurled against Fort Souville, on the Verdun front, where the Crown Prince is making desperate efforts to reduce and capture this only remaining first class position on the east bank of the Meuse between his forces and the city of Verdun. With Fort Souville in German hands only two miles would remain to be covered before the Germans could enter the ruined city itself.

Paris, in the shortest official statement issued since the beginning of the war, declares that "except for a quite violent bombardment in the sector of Souville, there was no important event to report on the front." This twenty-one word communique indicates a marked lull in the French sector of the Somme front, but further successes for the British in the Picardy region are officially admitted by Berlin.

Berlin Admits Retreat. The official statement from German headquarters says the British have succeeded in re-establishing themselves in the village of Contalmaison, as announced by London.

The British are consolidating their positions in the face of furious German counter attacks, and at one point have progressed to within 200 yards of the German second line, which they are shelling in preparation for a heavy new infantry attack.

Bapaume Is British Goal.

The second phase of the British offensive is approaching a crisis in the battle northeast of Albert, where British troops are striving to advance two miles eastward to the heights of Martinpuich.

The Germans have thrown two whole army corps in action on both sides of the Albert-Bapaume road to defend the approaches to Bapaume. They are making the most savage counter attacks, particularly southeast of Contalmaison, where a German success would hold up the whole British advance.

Break Up Austrian Offensive.

Rome, July 14.—Austrian troops in the Adige Valley, after a heavy bombardment, made an attack Wednesday on positions recently won by the Italians. The war office announced that the Austrians had been driven back in disorder, with large losses.

Russ Capture 2,000 More.

London, July 14.—With the Russian offensive temporarily checked on the Stokhod River and heavy German reinforcements blocking the advance on Kovell, the czar's chief action centered on the lower Strypa front. There in the face of violent counter attacks the Russians captured 2,000 prisoners and several guns.

At least six great armies are engaged against Austrians and Germans on Russia's western front.

EXAMINE the lather the next time you wash your hands with Ivory Soap. You will find it composed of an infinite number of bubbles.

This is why Ivory lather is so thick, copious, lively, pleasant. This is why it is so easy to spread it over the arms, the face and the body. This is why it feels so soft and smooth. This is why it does not become hard and dry on the skin. This is why it rinses so easily. This is why it forms so quickly.

Ivory Soap lather is just one little air cushion after another enclosed in gossamer-like films of the mildest, purest, highest grade soap that can be made.

Reading Circle Picnic

"A Perfect Day", as sung by Robert Anderson in the afternoon as the members of the Thursday Reading Circle grouped themselves on the bank of Rock River at Lowell Park, was the keynote for the whole day spent by the club members in picnicking there. The day was in every way delightful—the early morning ride to the park, the indescribably good dinner served at noon, and the informal program of reading and song furnished by various ones of the club membership. Robert Anderson sang a number of beautiful songs, Mrs. Allan Read gave several in her pleasing voice, Charles and Henry Floto also sang, and Mrs. Charles Floto gave two charming readings. Walton Club Meeting

Anything to shorten the hours spent in a warm kitchen is particularly welcome to housewives these truly summer days, and the paper given by Mrs. Edward Dempsey before the Walton Domestic Science club on "System in Housekeeping," was particularly timely and was enthusiastically received. She spoke of the lessening of labor through the application of business methods to the keeping of the home and showed many ways in which labor could be lightened by keeping in mind what work needed to be done and the shortest and quickest way of doing it.

A pleasing addition to the program was made by the talk given by Miss Kelly of Chicago, who represented a Household Science book gotten out by the Success Magazine.

The music of the day, a beautiful solo entitled "Good-Bye, Good Luck, God Bless You," was given by Miss Marguerite Soland of Chicago, the guest of Mrs. Michael O'Malley of Walton, and hearty applause brought forth the encore, "Dear Old Girl."

Refreshments,—sandwiches, cake, and lemonade,—were served by one of the hostesses, Mrs. Thomas McCune. The other hostesses, Mrs. Grace Pettierew, was unable to be present because of illness in the family.

At the next meeting a demonstration will be given of proper table setting and serving by Miss Alice Ackert, a student of Household Science at the University of Illinois. A paper will be given on "Lighting Systems for the Country Home," by Mrs. Theodore Fitzpatrick, and dress cooking will be demonstrated by Miss Nellie Cahili.

Fifth Birthday

Five years old on July 12th, little Charles Alden Ackert, the oldest son of Mr. and Mrs. Carl Ackert of Walton, celebrated his birthday anniversary with a luncheon all in pink and white on the lawn. He had as his guests for the afternoon his two

grandmothers, Mrs. Rebecca Garland of Walton and Mrs. Abram Ackert of Dixon; his aunt, Miss Edna Nowell of Dixon, and his cousin, John Burke of Harmon. The luncheon table was adorned with a handsome birthday cake carrying its quota of pink and white candles and surrounded at the base with pink flowers. Assorted cakes in pink and white and French sandwiches, made with crackers as the foundation, spread with cheese and preserved strawberries, further carried out the color scheme. The little lad was made happy with many presents, including silk ties, handkerchiefs, two boxes of candy, etc.

FRANK O. LOWDEN

ENGLISH PAPERS ON HUGHES' NOMINATION.

"Mr. Hughes, so far from seeking the post, has not lifted so much as a little finger to get it, and has persistently refused even to say whether he would accept it if it were offered to him" says Sydney Brooks in the Mail. "When his name first came to be mentioned, his only comment was that he was a justice of the supreme court and had nothing to do with politics. From that position he has never budged. There has never been, within my recollection of the United States, a clearer case of the office seeking the man."

"The republicans may well and justly say 'It is true we do not know Mr. Hughes' opinions on current issues. But we do know Mr. Hughes. We know his character and we know his record.' He was twice governor of New York state, and in that office he showed to admiration what he was made of. He won the unbounded regard and loyalty of the whole people. He was 'the least time-serving governor, perhaps, that ever ruled New York state.'"

"The republicans," says the Evening Standard, "have chosen Judge Hughes as their candidate for the presidency of the United States. This is a prudent stroke to preserve the party from division. It is a curious situation. Only in the vaguest way has Mr. Hughes given an indication of what his policy will be. He is a republican; and that, of course, is something to go on with."

"The republican candidate for the American presidency will lose no points to his rival in respect of personal standing and reputation," says the Pall Mall Gazette. "Mr. Hughes has fought some hard battles in his time for good government, and is perhaps the best representative that could be found of 'high-mindedness' in his country's politics. Until the election is over, of course, his party will be his first consideration, and any reference to foreign affairs in which he may indulge must be read with that commentary."

"The republicans have adopted Judge Hughes as their candidate for the president of the United States," says the Chronicle. "It is a remarkable tribute to his personality, for Mr. Hughes never sought the honor; he is an austere man of lofty character, who fought the 'bosses' of his own party with fearless courage when governor of New York state, and he never truckled to the 'moneyed' interests which are so powerful in the republican party. For the past six years, as a judge of the supreme court, he has necessarily been silent on political questions. In training and character he has marked affinities with his opponent, President Wilson."

A NEW BRIDGE NEEDED IN DIXON.

If Dixon wants to build a new bridge, the time to do it is very near. One bridge is hardly enough for a city this size and the present structure is in such shape that it is only a matter of time until it will have to be replaced. It may become useless at any time and Dixon would be in a sorry predicament if anything occurred to cut off communication between the north and south sides of the river.

The accident that occurred on the bridge the other day when the inter-urban car damaged the side of the structure shows how easily something might happen to destroy the usefulness of the bridge at any time. The bridge is too narrow and there has not been a smooth floor on it for many years. The double track street car line makes it very dangerous and with the increased traffic that it must stand, the bridge is not as satisfactory as it was in other days.

A fine wide, concrete structure across the river at the site of the present bridge or anywhere below that the citizens believe most advisable would greatly improve the looks of things as well as relieve the traffic situation.

A BATH HOUSE FOR LOWELL.

A petition is being circulated which asks the City Commission to build a bath house at Lowell park. The compliance to this request by the city would be a fine thing for the visitors at the park. It would be money well invested.

It would not take a great deal of money to make the swimming facilities at the park very good. There is a good beach there and swimming dock, with spring-boards, etc., would not be much of a job to put up. Lowell park is a great asset to Dixon and this city is gaining more valuable advertising from the park than it realizes. Every nice day finds large parties there from cities many miles away. The bath-house would not cost much and it would add greatly to the amusement facilities of the park.

HOT?

So you think it's hot, do you, with your little 90 degrees, and your electric fans and daily ice cream wagons?

Well, if you think it's hot, what do you thing the militia boys down along the lower Rio Grande are thinking about their climate?

There they have dust storms every evening and no electric fans; 100 to 110 degrees in the sun, and very little shade; sweaty garments that stick and itch, and nary a bath tub!

If they were brought back to this comparative summer resort, they'd call for their winter underwear.

Moral: Heat is a comparative thing, anyway, and it isn't hot unless you worry about it.—Aurora Beacon-News.

Man-eating sharks do not seem to bother the swimmers at Assembly Park beach. Between two and three hundred enjoy the bathing there every evening. We believe the most dangerous thing that lurks in the waters of the Rock is the snapping turtle, and he is only dangerous when at bay.

Carranza now says that if the U. S. does not lift the embargo on war munitions he cannot keep order in northern Mexico and the U. S. border will be subject to further raiding and pillage. Carranza is an oily, diplomatic old outlaw. He has Mr. Wilson in an embarrassing predicament.

"I want them very much," she said.

[Adapted from Grimm's Fairy Tales]

TIME for a bedtime story came, so daddy told Jack and Evelyn about Kate. "There was once a woman, Kate, who let her dog run off with the steak her husband wanted for dinner. While she chased the dog she left the tap running, so that all the ale flowed from the cask. Then she wasted a bag of meal sopping up the ale and finally blamed her husband for not telling her she was doing wrong."

"Well, her husband, Frederick, thought that if his wife could not manage better than this he would have to look sharp. He had a good deal of gold in his house, so he said to Kate: 'I am going to put these pretty yellow buttons in a box and bury them in the garden. But don't you ever dig them up or meddle with them, Kate.'"

"As soon as he had gone to work some peddlers with earthenware dishes and plates came to sell Kate some. 'I want them very much,' she told the peddlers, 'but I have no money. If you will take some nice yellow buttons I can trade with you.'"

"Let us see the yellow buttons," said the peddlers.

"You can dig them up in the garden if you go where I tell you," said she.

"So the rogues dug up Frederick's gold and took it all, leaving Kate plenty of dishes and pans. She had great fun putting them up on her kitchen walls, and when Frederick came home he found her fussing with her dishes. 'Kate, what are you doing?' he cried.

"See, I bought all these nice pans with your yellow buttons!" she answered. "You asked me not to touch them myself, so I sent the peddlers to dig them up." "Kate, Kate," cried her husband, "those yellow buttons were gold and all the money I had! Why did you do that?"

"I did not know there was any harm in it. You should have told me," Kate blamed Frederick. Then she said: "We will soon get the gold back. Let's run after the thieves."

"We'll be hungry chasing rogues," said Frederick. "Take along some bread and butter and cheese." So they set out, but as Frederick walked much faster than Kate she was soon far behind him. "When we turn back I shall be that much nearer home," said Kate to herself.

"Soon she came to the top of a hill where there was a road so narrow that passing carts struck the trees on each side. 'These poor trees!' said Kate. 'I must grease them so the carts won't rub their bark.' And she took the butter Frederick had asked her to bring and greased the tree trunks," daddy finished.

PEOPLES COLUMN

Editor Telegraph:

Inasmuch as the public has been asked to give through the columns of your paper an expression of opinion as to the desirability of closing the stores on Wednesday evenings and also for one afternoon each week during the summer months, we, the members of the Civic League Auxiliary, wish to heartily endorse and urge that such a plan be adopted and at once. More than this, we also wish to urge that the movement include office employees as well as those of the stores.

The present custom of neither closing on Wednesday evenings nor having half holidays for the benefit of the clerks and office employees who have no opportunity otherwise for recreation, brands our beautiful and otherwise progressive and up to date city with the stigma of "small towns," whereas this plan has been adopted quite generally in other towns, both larger and smaller than Dixon, and to the detriment of none.

We find upon investigation that a majority of the merchants do favor this proposition and we feel that when the few who are not in favor of it realize that public sentiment is against such an attitude, they too, will fall in line and get together and decide upon a day most agreeable to all of the merchants.

In closing, we would suggest different days of closing for stores and offices for the sake of the convenience of the office employees who oftentimes find it extremely difficult to do even their necessary shopping WOMAN'S CIVIC LEAGUE AUXILIARY.

QUEEN MOURNS FOR KITCHENER

(Associated Press)

London—Perhaps none outside his immediate family were more grief-stricken at the news of Lord Kitchener's tragic death than Queen Alexandra. The attentiveness of the soldier to the Queen-Mother had long been notable, and there was a very strong bond of sympathy between these two, undoubtedly two of the loneliest figures prominent contemporary London.

Indeed there was something pathetic in the lonely neighborhood of the War Secretary, who occasionally to his intimates dropped remarks bearing on his lack of home and near relations. Not a week passed during the war in which he has not paid a visit to Marlborough House, where he would remain for long visits with Queen Alexandra, and come away with a long list of those combatants of whom her friends had made special inquiries. However pressing the demands of the campaigns on the various fronts, he would always return within a few days with the desired information.

Lord Kitchener had promised to be the Queen-Mother's guest during the coming summer at Sandringham. He constantly had ladies to lunch at his seat in Kent, Broome Hall, near Canterbury, on Sundays, and would show them how he was developing his gardens and dilate to them on the beauties of China. Younger women were conspicuous by their absence at these times, the guests being chiefly peeresses and experts on gardening as well as the wives of men who had served under him in various campaigns.

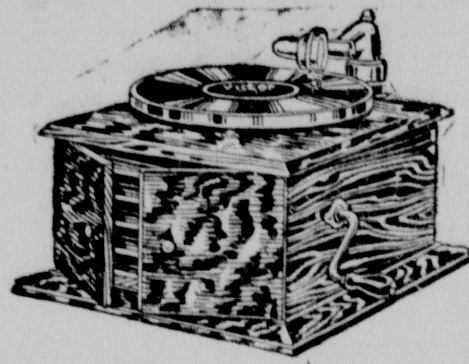

At York House, St. James' Palace, he gave a number of dinner parties to men only, the military element being not always conspicuous at these. He liked doctors, though cared nothing for actors or musicians. Several of the higher clergy in London enjoyed his friendship and hospitality.

Lord Kitchener was personally well known to the owners of many of the more expensive curiosity shops in London. He would bargain over purchases, but did not possess the commercial sense, and in the end would always pay a good price, usually his own initiative. The dealers generally received a check the day after delivery, the check being quite often post-dated a month or two.

London—Since the beginning of the war the cult of the single eyeglass has been spreading slowly but significantly—"monocles are becoming

London—Since the beginning of the war the cult of the single eyeglass has been spreading slowly but significantly—"monocles are becoming

ing fixed in the public eye," as one newspaper says. "There has never been a great demand for monocles," says a London optician, "but certainly we have sold more than usual during the last few months. The fashion seems to have declined in the army and our chief customers are men just over military age."

"Why do men wear monocles? Undoubtedly the single eyeglass confers distinction on the right sort of man, but scarcely one man in a thousand can sustain the distinction."

"To wear a monocle successfully a man must be perfectly dressed. A monocle and baggy trousers are an impossible combination. Probably one of the reasons why monocles are becoming popular with middle-aged men is the reluctance of the man of forty to be eclipsed by the glamor of uniform."

"Undoubtedly in the right sort of man the monocle conveys a subtle distinction of superiority. It either emphasizes or obscures personality, there is no middle way."

London—German, Austrian and Hungarian coal owners are forming a syndicate to supply coal to the Balkans, hitherto largely furnished by Great Britain. The capital is \$1,000,000. Steps will be taken to develop the Danube river traffic for carrying the coal. The Balkan States have been getting some 2,500 tons of coal every year from England.

One of the most up-to-date barns in that part of Lee County has just been completed on the Henry Fischer farm in Marion township. The work was done by Mr. Hoff and men of Nachusa.

MIRA EDWARDS.

The community was saddened on Sunday morning, July 9th, to learn of the death of Mira, the 14-year old daughter of Mr. and Mrs. Grant L. Edwards of Lee Center township. The deceased had been ill but a week, being taken with scarlet fever on the previous Monday. The dread disease, however, was too much for her to withstand; she answered the angel of death at 5 o'clock Sunday morning. Burial was in the Catholic cemetery adjoining town while the funeral services were private. Beside her parents she leaves a sister, Vida, and two brothers, Bernard and Ralph, to mourn her loss. The oil was spread on our streets Monday and now the dust is no more. But instead everywhere is the track of the oil carried on pedestrians' shoes. The latter, however, is much better to contend with than the dust and only those who have never had the benefit of road oiling do not know the measure of satisfaction our people are enjoying.

The residence properties being erected by Prosper Gander and August Chaon are being rushed to completion at a rapid pace and already the men have had several opportunities to sell. A few more houses in West Brooklyn are badly needed and should prove an excellent investment for anybody.

John Lally of Walton was here for the ball game Sunday.

West Brooklyn, 19; Walton, 2.

It's now ten games won and none lost for West Brooklyn's baseball team. They defeated the Walton lads on Sunday afternoon by the above lopsided score and the only reason it was not worse was because the local changed their team around to give the Walton boys a chance to end the game.

Every man on the team took a different position with the exception of the center fielder. Even Bert Long quit pitching and took first base, and the team was transformed in great shape.

The third baseman doing the pitching. So the 19 score might have been 99, as can be determined from the above.

A bachelor of considerable wealth was much sought after by many of the most charming young women of the town in which he resided. "The happiest moment of my life," answered the bachelor, with a reminiscent smile, "was when the jeweler took back an engagement ring that had been returned to me and gave me some cuff links in exchange."

NEW REVOLTS IN MEXICO, REPORT

Felix Diaz Head of One; Trevino Another.

CRISIS PAST, SAYS PERSHING

American General Reports Better Feeling Among Mexicans Toward U. S. Soldiers—Exchange of Cars is Arranged in Agreement Between Two Governments at Border.

El Paso, Tex., July 14.—Secret service agents of the government have reported to Washington that a new revolution in Mexico headed by General Jacinto B. Trevino is well under way. Coalition between the Villistas and disgruntled Carranzistas is said to have been accomplished.

Carranza's order relieving Trevino at Chihuahua and sending him to Monterrey is believed to have been an effort to stem the tide that has set against the de facto government.

The plan, as unfolded here, shows that Trevino's agents have been working secretly throughout Mexico.

Diaz in Another. Nogales, Ariz., July 14.—Another revolutionary plot, set on foot by Felix Diaz to cause the overthrow of the Carranza government in Sonora, was revealed in the United States District court when Colonel Alejandro Barron was held on a charge of starting a military expedition into Mexico.

Ramifications of the plot extended through half a dozen border towns. A number of high military officers were implicated.

Feeling Friendlier, Says Pershing. Washington, July 14.—General Pershing reported that it was generally believed both by Mexicans and foreigners along the line of communication of his expedition that a crisis between the United States and Mexico had been averted and that this has brought about a new friendly relationship between the Americans and Mexicans.

"Mexicans in this vicinity and along the railroad," the dispatch said, "are reported very friendly toward Americans in the last few days. It is generally believed that trouble between the United States and Mexico has been settled. The rainy season is on in earnest, heavy rains being reported from the various stations along the line during the last few days. Will report within a day or two effect of rains upon roads and general prospects regarding road maintenance."

Exchange Rolling Stock. Custom collectors along the border have been instructed upon request of the state department to permit railroad rolling stock to enter Mexico by equitable exchange of cars. For every car permitted to enter Mexico, the order stipulates, a car from Mexico shall enter American territory. The collectors also are instructed not to interfere further with shipments of food and clothing into Mexico.

It is understood, however, that the present method of handling war munitions destined to points beyond the border shall continue in force until further notice.

Bombay Bars Annie Besant. London, July 14.—Mrs. Annie Besant, one of the leaders of the movement for home rule for India, has been prohibited under the defense of India act from entering the Bombay presidency, says a Bombay dispatch.

Mrs. Besant is president of the Theosophical Society of London and has made several lecture tours in America.

ANNOUNCEMENT. Samuel J. Whetstone, Republican candidate for Coroner of Lee County, Steward, Illinois. Subject to Republican Primaries.

A WORD WITH WOMEN

Valuable Advice for Dixon Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, uterine, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this Dixon woman's convincing statement:

Mrs. C. Charlton, 516 Lincoln Ave., Dixon, says: "I suffered for a long time from pains across my back and sides. The trouble was particularly severe at night and early in the morning. When I bent over to lift anything, I was hardly able to straighten up again. My kidneys were inactive, too. Doan's Kidney Pills, procured from Leake Bros. Co.'s Drug Store, weren't long in giving me relief." (Statement given May 21, 1912.)

On January 21, 1915, Mrs. Charlton said: "I use Doan's Kidney Pills whenever my back gets lame or sore and they always help me."

Price 50c, at all dealers. Don't simply ask for a remedy—get Doan's Kidney Pills—the same that Mrs. Charlton has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

MAN FROM WEST SHOCKS MILWAUKEE HOTEL CLERK

Hell, He Tells His Skeptics is on the Union Pacific, Sixty Miles From Paradise

Milwaukee, Wis.—He was a short man, mild mannered, and had a pleasant smile, but he got the clerk's goat at the Hotel Maryland when he registered, "Paul M. Fredericks, Hell."

"You hadn't better do that," protested the clerk. "Don't pull that hell stuff here."

"But there's where I come from," spoke Fredericks. "Hell's in North Dakota."

"Tell us some more," Fredericks was asked by Manager F. B. Sweeney.

"Well, Hell (sometimes spelled Hell) is sixty miles from Paradise," explained Fredericks to the consternation of his hearers, "and we have some fine country. You see you go to Hell on the U. P., on the Mott branch, seven miles east of Elgin. Paradise is inland, and the only way that you can get there is by stage, and you can only go to Paradise three times a week from Morristown, S. D. Both of the towns are in Morton county, in southwestern North Dakota."

"How large are the towns?" asked one of the auditors.

"We've got it all over Paradise; Hell's more than twice as large," replied Fredericks.

"Why we have three churches in Hell now, while they only have one in Paradise."

"Bill Hell is postmaster at Hell and Dick Hell does most of the driving; he has a fine livery business."

"Over in Paradise there is not much doing. They have a woman handle the mails there, Eva Weinrich."

"Do you like Milwaukee?" Fredericks was asked.

"Well, yes; Milwaukee is livelier than Hell and much larger. I think I'll stay a while."

UNION LEADERS ARE CONVICTED

Prison for Six, Eight Are Heavily Fined.

JUDGE SCORES DEFENDANTS

Convicted Men Were Charged with Extorting Money from Contractors and Resorting to Violence and Intimidation to Enforce Their Demands—Judge at First Refuses New Trial.

Springfield, Ill., July 14.—Determined to have first hand information regarding conditions at LaSalle and Oglesby, Ill., where troops were sent in response to messages from Sheriff E. M. Davis and citizens of LaSalle County that serious trouble was imminent in a strike of cement workers, Governor Dunne has gone to LaSalle.

Chicago, July 14.—Fourteen Chicago labor leaders were found guilty of conspiracy and three acquitted by a jury which had been deliberating the case all night.

The seventeen defendants, most of them business agents of building trades organizations, were charged with conspiracy to extort, to boycott, to commit malicious mischief and to obtain money under false pretenses. It was charged that they systematically extorted money from contractors building owners, etc., by threats of strikes and violence.

Six Get Prison Terms.

The three acquitted were William Clauss, business agent of the Fixture Hangers' Union; Thomas Kelley, business agent of the Electrical Workers' Union, and John White, former business agent of the Painters' District Council.

Six of those convicted were sentenced to the penitentiary from two to five years and eight were fined from \$500 to \$2,000.

Arguments for new trials were scheduled for 2 o'clock after Judge Kiekham Scanlan relaxed his first rule as to bonds for the men given penitentiary sentences. Each of the six men sent to prison will be given his liberty upon furnishing \$10,000 bonds. The bonds of the eight whose punishment was fixed at fines of from \$500 to \$2,000 were allowed to remain at the original amounts.

Judge Scanlan at first refused to listen to arguments. He said: "My mind is fixed with mathematical certainty as to the guilt of these men." "But the court's ruling might be reversible error," suggested Assistant State's Attorney Raber, "and the state has no objections to such arguments."

Judge's Feeling Strong.

Judge Scanlan's feelings were strong, as indicated by remarks he made after the conviction.

"Many men sought to escape jury service in this case out of pure cowardice," he said. "The men who returned the verdict have helped to rid the community of one of the most treacherous conspiracies that ever threatened it. These men had to be punished or the future of Chicago would be very dark. These jurors performed just as heroic service as do the soldiers at the Mexican border."

The jurors declined to discuss their action. One, who required that his name be withheld, said:

"We found these men guilty because they were just plain grafters."

Troops Go to La Salle.

Springfield, Ill., July 14.—The first orders sending state troops to quell labor riots since militia contingents went to the Mexican border were given by Governor Dunne in response to a call from Sheriff Davis of LaSalle County following incipient battles at LaSalle between strikers at cement plants and the police.

Company A of Rock Island and Company B of Geneseo, Sixth Infantry, were ordered to entrain at once. The companies are under the command of Colonel Charles G. Davis.

Whiting Fire Loss \$250,000.

Chicago, July 14.—Four sections of the immense Standard Oil company's plant at Whiting, Ind., were damaged by fire when flames originating from a bursting radiator were transmitted through four battery condensers. The damage is estimated at \$250,000.

Chicago Specialist Dies.

Chicago, July 14.—Dr. Arthur Cleveland Cotton, sixty-nine years old, specialist in children's diseases and author of several textbooks on the subject, died of heart disease at his home here. He had been ill since Sunday.

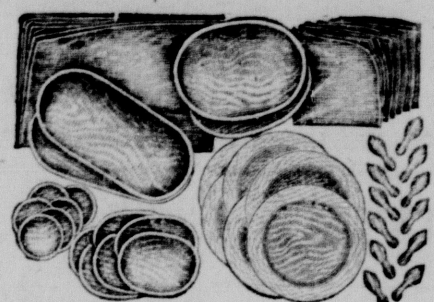

Building Strike Ends.

Kansas City, July 14.—The building strike in which 2,000 common laborers and plumbers' helpers were effected, was ended when virtually all of the men returned to their work following compromise agreement.

Trolley Falls in Subway.

New York, July 14.—A trolley car with twenty passengers is reported to have fallen through a Brooklyn street into a subway excavation beneath. No one was killed. The car fell fifty feet below the street level.
